- If you have any underlying health issues that may be aggravated by this attraction, do not participate.
- Mazes areas have ramps at entry. Persons with disabilities must be accompanied by a physically capable caregiver who can help them exit the attraction in the unlikely event of an incident.
- Any persons acting inappropriately will be asked to exit the arena and may be asked to leave Rainbow's End. In such instances a refund may not be available.
- If you are concerned with other player behaviour, please approach the Course Marshal or the Attraction Attendant.

A note on restrictions: Rainbow's End is a busy environment with a broad mix of guests. This means we may have additional restrictions designed for guest safety that aren't in place at smaller venues. City Strike Arena features a play area of 4000 square feet featuring a network of dark mazes and tunnels. Due to the rigorous nature of play and mixed group setting of up to 24 active players at once, City Strike is aligned to the rest of Rainbow's End ride rules.
