

WHAT CAN MY 8 TO 16 YEAR OLD RIDE ON A SUPERPASS?

How tall your child is, and their age, impacts what they can hop on, and whether they need an adult on a riding pass to accompany them to meet safety requirements.

If your child is under the height of 120cms, an adult of over 160cm with a riding pass (Adult Superpass) will need to accompany them on the rides their height allows them to access.

This chart does not show Kidz Kingdom rides as this area is for 8 year olds and under, however if your child meets the criteria they can of course access Kidz Kingdom on a Superpass.
